

BILLY RODER

Billy is 20 and lives in Newquay

I was about 10 when I moved down to Cornwall from Essex. My primary school was good and I learnt the most there, but I struggled at secondary school and never really got the help I needed. I hated it.

I haven't done a lot since leaving school. I was working as a KP last year when I heard about the Fifteen Cornwall programme and immediately decided to apply. I feel as if I have been given a second chance to turn my life around and make something of myself.
