

JACK BRISTOW

Jack is 19 and lives in Wadebridge

My family have always been involved in catering which has influenced me. I always saw school as a social thing, and was more interested in having fun rather than trying hard to gain good grades, but since leaving school, I've been to college and have also been working part time in catering.

I feel very privileged and proud to have been chosen to be on this course and I now feel like I have a point to prove. Eventually I'd like to own my own restaurant.....
so watch this space!
