

PAUL VENABLES

Paul is 24 and lives in Playing Place

I grew up with my mum dad and 2 brothers. I am the youngest of 3 sons. I didn't really like school so skipped it a lot. When I was there I didn't pay attention. Since leaving school, I've had two children, tried lots of different jobs, but never settled down. I avoided my family and the responsibility. I'm really loving the course and getting on it is one of my biggest achievements. I'm so pleased to have this opportunity over the many people who applied. In the future, I hope to be progressing in the catering industry, and settling down with a mortgage on a house, a great job.
