

ROB ESKINE-GRAY

Rob is 22 and lives in Newquay

I grew up with an autistic brother that I used to help and I was diagnosed with aspergers syndrome and attention deficit disorder. School was stressful - I didn't get on with any of my teachers as I was 'different.' I enjoyed sports, food tech and construction. I tried to hold down a number of jobs since school but because of my disability I never could.

Being on the Fifteen Cornwall is great fun and the people are good fun. It's opening my eyes to food in a new way.
